DETAILED ACTION

1. Claims 1-9 and 23-34 are pending. Applicant cancelled claims 10-22.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-9 and 23-34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Goddard, US 6,876,983.

Goddard discloses an electronic system, e.g. 10, 12, for aggregating purchases reflecting demand for items from different purchasers, e.g. 14, 24, and notifying the users of information identifying a location to address any responses. Goddard does not disclose the term user identification or determining whether to commit to purchase. However, Official Notice is taken that implementing user identification used with an electronic purchase system and leaving the option open for a consumer the option to commit to purchase a product has been common knowledge in the art. It is noted intended use claim language, e.g. "for at," is given patentable weight, but less than that of positively recited claim language.

To have provided such for Goddard would have been obvious to one of ordinary skill in the art. The motivation for doing such is that user identifications and options to commit to a purchase would have been an obvious use of the Goddard system.

Applicant's August 30, 2005 REMARKS are convincing with regards to the previous Office Action, but are moot in light of the new grounds of rejection.

4. A further reference of interest is noted on the attached PTO-892.

Conclusion

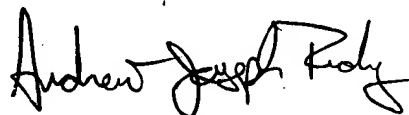

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
